

## SUBJECT INDEX

NOTE: Abstract Index follows Author Index

### A

#### **Accommodation palsy**

Accommodation and convergence palsy caused by lesions in the bilateral rostral superior colliculus, 425

#### **Actinomyces neuii**

Acute postoperative endophthalmitis caused by *Actinomyces neuii*, 145

#### **Acute macular neuroretinopathy**

Scanning laser ophthalmoscope findings in acute macular neuroretinopathy, 413

#### **Acute posterior multifocal placoid pigment epitheliopathy**

Acute posterior multifocal placoid pigment epitheliopathy and scleritis in a patient with pANCA-positive systemic vasculitis, 566

#### **Adie tonic pupil**

Pupillary response to four concentrations of pilocarpine in normal subjects: application to testing for adie tonic pupil, 333

#### **Against-the-rule astigmatism**

Against-the-rule (ATR) astigmatism as a predicting factor for the outcome of amblyopia treatment, 741

#### **Age-related macular degeneration**

Clinical observations supporting a theoretical model of choriocapillaris blood flow in treatment of choroidal neovascularization associated with age-related macular degeneration, 801

Double-blind placebo-controlled evaluation of the acute effects of sildenafil citrate (Viagra) on visual function in subjects with early-stage age-related macular degeneration, 665

Fundus autofluorescence in patients with age-related macular degeneration and high risk of visual loss, 341

Impact of visual function on computer task accuracy and reaction time in a cohort of patients with age-related macular degeneration, 350

Photodynamic therapy increases the eligibility for feeder vessel treatment of choroidal neovascularization caused by age-related macular degeneration, 572

Radiotherapy for subfoveal choroidal neovascularization in age-related macular degeneration: a randomized clinical trial, 521

Transplantation of autologous retinal pigment epithelium in eyes with foveal neovascularization resulting from age-related macular degeneration: a pilot study, 215

Verteporfin therapy of subfoveal choroidal neovascularization in age-related macular degeneration: two year results of a randomized clinical trial including lesions with occult with no classic choroidal neovascularization—verteporfin in photodynamic therapy report 2 (correspondence), 168

Verteporfin therapy of subfoveal choroidal neovascularization in age-related macular degeneration (correspondence), 857

#### **AIDS**

Characteristics of patients with cytomegalovirus retinitis in the era of highly active antiretroviral therapy, 48

Randomized controlled clinical trial of intravitreous fomivirsen

for treatment of newly diagnosed peripheral cytomegalovirus retinitis in patients with AIDS, 467

Randomized dose-comparison studies of intravitreous fomivirsen for treatment of cytomegalovirus retinitis that has reactivated or is persistently active despite other therapies in patients with AIDS, 475

Safety of intravitreous fomivirsen for treatment of cytomegalovirus retinitis in patients with AIDS, 485

#### **Albinism**

Foveal hypoplasia in oculocutaneous albinism demonstrated by optical coherence tomography, 409

#### **Allogenic penetrating keratoplasty**

Immunologic graft reactions after allogenic penetrating keratoplasty, 437

#### **Allograft**

Clinical application of living-related conjunctival-limbal allograft, 134

#### **Alternaria alternata**

Polymerase chain reaction diagnosis in fungal keratitis caused by *Alternaria alternata*, 398

#### **Alzheimer's disease**

Association of glaucoma with neurodegenerative diseases with apoptotic cell death: Alzheimer's disease and Parkinson's disease, 135

#### **Amblyopia**

Against-the-rule (ATR) astigmatism as a predicting factor for the outcome of amblyopia treatment, 741

#### **Amniotic membrane graft**

Amniotic membrane graft for late-onset glaucoma filtering leaks, 834

#### **Amyloidosis**

Transthyretin Ser-44 mutation in a case with vitreous amyloidosis, 272

#### **Angiotensin II**

Angiotensin II and vascular endothelial growth factor in the vitreous fluid of patients with diabetic macular edema and other retinal disorders, 537

#### **Animal studies**

Pathologic features of vascular endothelial growth factor-induced retinopathy in the nonhuman primate, 373

#### **Anisometropia**

Against-the-rule (ATR) astigmatism as a predicting factor for the outcome of amblyopia treatment, 741

#### **Anterior ischemic optic neuropathy**

Anterior ischemic optic neuropathy after a trans-Atlantic airplane journey, 581

#### **Anterior optic neuropathy**

Atypical anterior optic neuropathy caused by toxoplasmosis, 162

#### **Anterior pole cataract**

Corneal edema with dislocated anterior pole cataract, 399

#### **Anterior segment**

Optical coherence tomographic findings of the anterior segment after nonpenetrating deep sclerectomy, 837

**Anterior uveitis**  
Presumed trematode-induced granulomatous anterior uveitis: a newly recognized cause of intraocular inflammation in children from South India, 773

**Antibiotics**  
Fourth generation fluoroquinolones: new weapons in the arsenal of ophthalmic antibiotics, 463

**Anticardiolipin antibodies**  
Ocular features associated with anticardiolipin antibodies: a descriptive study, 293

**Anti-interferon-γ antibodies**  
Treatment of corneal transplant rejection in humans with anti-interferon-γ antibodies, 829

**Antiretroviral therapy**  
Characteristics of patients with cytomegalovirus retinitis in the era of highly active antiretroviral therapy, 48

**Aqueous humor**  
Increased levels of vascular endothelial growth factor and interleukin-6 in the aqueous humor of diabetics with macular edema, 70

Late-onset transconjunctival oozing and point leak of aqueous humor from filtering bleb after trabeculectomy, 456

**Astigmatism**  
Against-the-rule (ATR) astigmatism as a predicting factor for the outcome of amblyopia treatment, 741

**Astrocytic hamartoma, retinal**  
Spontaneous regression of retinal astrocytic hamartoma in a patient with tuberous sclerosis, 715

**Ataxia**  
Autosomal recessive cerebellar ataxia with bull's-eye macular dystrophy, 410

Ocular motility in genetically defined autosomal dominant cerebellar ataxia, 718

**Autofluorescence**  
Abnormalities of fundus autofluorescence in central serous retinopathy, 780

Fundus autofluorescence in patients with age-related macular degeneration and high risk of visual loss, 341

**Autologous ipsilateral rotating penetrating keratoplasty**  
Autologous ipsilateral rotating penetrating keratoplasty (correspondence), 590

**B**

**Bacterial infections**  
Fourth generation fluoroquinolones: new weapons in the arsenal of ophthalmic antibiotics, 463

**Balloon catheter dilation**  
Balloon catheter dilation for treatment of persistent nasolacrimal duct obstruction, 337

**Betaxolol**  
Double-masked randomized comparison of the efficacy and safety of unoprostone with timolol and betaxolol in patients with primary open-angle glaucoma including pseudoexfoliation glaucoma or ocular hypertension. 6 month data, 1

**Bimatoprost**  
Reactivation of herpes simplex virus keratitis after initiating bimatoprost treatment for glaucoma, 401

**Biomicroscopy**  
Ultrasound biomicroscopy in the screening of retinopathy of prematurity, 284

Ultrasound biomicroscopy in uveitis-glaucoma-hyphema syndrome, 839

**Biopsy**  
Corneal biopsy in the management of progressive microbial keratitis (correspondence), 291

**Birdshot retinochoroiditis**  
Birdshot retinochoroiditis: long term follow up of a chronically progressive disease, 622

**Blebs**  
Amniotic membrane graft for late-onset glaucoma filtering leaks, 834

Autologous blood injection for late-onset filtering bleb leak (correspondence), 859

Late-onset transconjunctival oozing and point leak of aqueous humor from filtering bleb after trabeculectomy, 456

**Blindness**  
Blindness and glaucoma: a comparison of patients progressing to blindness from glaucoma with patients maintaining vision, 764

Global partnership to preserve and restore vision (editorial), 822

Preservation of vision or prevention of blindness? (editorial), 263

**Blink rate**  
Visual protective sheet can increase blink rate while playing a hand-held video game, 704

**Bone marrow transplantation**  
Scleritis as the initial clinical manifestation of graft-versus-host disease after allogenic bone marrow transplantation, 843

**Books, Software, and Electronic Media**

Systemic Diseases and the Eye: Signs and Differential Diagnoses, by Kanski, JJ, 592

**Brachytherapy**  
Management of medulloepithelioma of the ciliary body with brachytherapy, 841

**Branch retinal vein occlusion**  
Perimetric sensitivity and retinal thickness in eyes with macular edema resulting from branch retinal vein occlusion (correspondence), 428

**Brimonidine**  
Latanoprost and brimonidine: therapeutic and physiology assessment before and after oral nonsteroidal anti-inflammatory therapy, 11

**Burkitt lymphoma**  
Lymphomatous meningitis of the Burkitt type presenting with multiple cranial neuropathies, 424

**C**

**Capsular calcification**  
Capsular calcification of alloplastic orbital implants, 289

**Capsule contract**  
Choroidal effusions and hypotony caused by severe anterior lens capsule contraction after cataract surgery (correspondence), 165

**Cataracts**  
Corneal edema with dislocated anterior pole cataract, 399  
Persistent vertical binocular diplopia after cataract surgery (correspondence), 860

**Central areolar choroidal dystrophy**  
Use of the multifocal electroretinogram in the evaluation of a patient with central areolar choroidal dystrophy, 852

**Central serous retinopathy**  
Abnormalities of fundus autofluorescence in central serous retinopathy, 780

**Cerebellar ataxia**  
Autosomal recessive cerebellar ataxia with bull's-eye macular dystrophy, 410  
Ocular motility in genetically defined autosomal dominant cerebellar ataxia, 718

**Cerebroocular myopathy syndrome**  
Clinicopathological report of cerebroocular myopathy syndrome, 559

**Chemoreduction**  
Chemoreduction plus focal therapy for retinoblastoma: factors predictive of need for treatment with external beam radiotherapy or enucleation, 657

**Chiari I malformation**  
Resolution of acute acquired comitant esotropia after suboccipital decompression for Chiari I malformation, 723  
Resolution of papilledema after neurosurgical decompression for primary Chiari I malformation, 673

**Children**  
Balloon catheter dilation for treatment of persistent nasolacrimal duct obstruction, 337  
Clinical spectrum of early-onset esotropia: experience of the Congenital Esotropia Observational Study, 102  
Endoscopic photocoagulation of the ciliary body after repeated failure of trans-scleral diode-laser cyclophotocoagulation, 405

Progressive axial myopia in a juvenile patient with traumatic glaucoma, 700  
Progressive growth of an iris melanocytoma in a child, 287

**Retinoblastoma** in a patient with an X;13 translocation and facial abnormalities consistent with 13q-syndrome, 285

**Retinoblastoma metastatic to the ovary** in a patient with Waardenburg syndrome, 716

Spontaneous regression of retinal astrocytic hamartoma in a patient with tuberous sclerosis, 715

Spontaneous resolution of early-onset esotropia: experience of the Congenital Esotropia Observational Study, 109

Subperiosteal orbital hemorrhage as initial manifestations of Christmas disease (factor IX deficiency), 584

Surgical management of epiretinal membrane in young patients, 358

Tear production during the neonatal period, 746

**Chloroquine**  
Hydroxychloroquine and chloroquine retinopathy: screening for drug toxicity, 649

**Choriocapillaris blood flow**  
Clinical observations supporting a theoretical model of choriocapillaris blood flow in treatment of choroidal neovascularization associated with age-related macular degeneration, 801

**Chorioretinopathy**  
Retinal atrophy in idiopathic central serous chorioretinopathy, 787

**Choroidal arterial occlusion**  
Retinal and choroidal arterial occlusion in Wegener's granulomatosis, 151

**Choroidal dystrophy**  
Use of the multifocal electroretinogram in the evaluation of a patient with central areolar choroidal dystrophy, 852

**Choroidal effusions**  
Choroidal effusions and hypotony caused by severe anterior lens capsule contraction after cataract surgery (correspondence), 165

**Choroidal hemorrhage**  
Intraoperative choroidal hemorrhage in the Osler-Rendu-Weber syndrome, 282

**Choroidal melanoma**  
Axons in human choroidal melanoma suggest the participation of nerves in the control of these tumors, 711  
Rapidly growing choroidal melanoma, A, 580

**Choroidal metastasis**  
Choroidal metastasis of a gingival squamous cell carcinoma, 713

**Choroidal neovascularization**  
Atypical choroidal neovascularization in radiation retinopathy, 709  
Clinical observations supporting a theoretical model of choriocapillaris blood flow in treatment of choroidal neovascularization associated with age-related macular degeneration, 801  
Optic disk drusen, peripapillary choroidal neovascularization, and POEMS syndrome, 275

Verteporfin therapy of subfoveal choroidal neovascularization in age-related macular degeneration (correspondence), 857

**Choroidal osteoma**  
Optical coherence tomography of choroidal osteoma, 419

**Chromosomal abnormalities**  
Retinoblastoma in a patient with an X;13 translocation and facial abnormalities consistent with 13q-syndrome, 285

**Ciliary body**  
Endoscopic photocoagulation of the ciliary body after repeated failure of trans-scleral diode-laser cyclophotocoagulation, 405

Management of medulloepithelioma of the ciliary body with brachytherapy, 841

**Clinical trials**  
Radiotherapy for subfoveal choroidal neovascularization in age-related macular degeneration: a randomized clinical trial, 521

Randomized controlled clinical trial of intravitreous fomivirsen for treatment of newly diagnosed peripheral cytomegalovirus retinitis in patients with AIDS, 467

Verteporfin therapy of subfoveal choroidal neovascularization in age-related macular degeneration: two year results of a randomized clinical trial including lesions with occult with no classic choroidal neovascularization—verteporfin in photodynamic therapy report 2 (correspondence), 168

**Color**  
Simple and inexpensive software designed for the evaluation of color, 140

**Color Doppler imaging**  
An apparatus for color Doppler imaging in seated subjects, 270

**Computed tomography**  
Chest computerized tomography in the evaluation of uveitis in elderly women, 499

**Conjunctiva**  
Osseous choristoma of the conjunctiva simulating extraocular extension of retinoblastoma, 825

Topical mitomycin C for extensive, recurrent conjunctival–corneal squamous cell carcinoma, 601

**Conjunctival cyst**  
Visualization of conjunctival cyst by indocyanine green, 827

**Conjunctival-limbal allograft**  
Clinical application of living-related conjunctival-limbal allograft, 134

**Conjunctivitis**  
Effective treatment of ligneous conjunctivitis with topical plasminogen, 451

**Contact lens**  
Complexity of contact lens fitting after refractive surgery, 607  
Sutureless contact lens ring system during vitrectomy, 847

**Convergence palsy**  
Accommodation and convergence palsy caused by lesions in the bilateral rostral superior colliculus, 425

**Cornea**  
Corneal biopsy in the management of progressive microbial keratitis (correspondence), 291  
Keratocyte density of central human cornea after laser in situ keratomileusis, 307  
Measurement of corneal epithelial thickness in response to hypoxia using optical coherence tomography, The, 315  
Noncontact corneal pachymetry with slit lamp-adapted optical coherence tomography, 444  
Sutureless contact lens ring system during vitrectomy, 847  
Topical mitomycin C for extensive, recurrent conjunctival–corneal squamous cell carcinoma, 601

**Corneal dystrophy**  
Two brothers with gelatinous drop-like dystrophy at different stages of the disease: role of mutational analysis, 830

**Corneal edema**  
Corneal edema with dislocated anterior pole cataract, 399  
Intracameral air injection for acute hydrops in keratoconus, 750

**Corneal endotheliitis**  
Corneal endotheliitis and idiopathic sudden sensorineural hearing loss, 699

**Corneal transplantation**  
Clinical application of living-related conjunctival-limbal allograft, 134  
Immunologic graft reactions after allogenic penetrating keratoplasty, 437  
Treatment of corneal transplant rejection in humans with anti-interferon- $\gamma$  antibodies, 829

**Corticosteroids**  
Lower eyelid herniation of orbital fat may complicate periocular corticosteroid injection, 845  
Subtenon's depot corticosteroid injection in patients with a history of corticosteroid-induced intraocular pressure elevation, 196

**Cost-utility analysis**  
Cost-utility analysis of interventions for severe proliferative vitreoretinopathy, 365

**Cup/disk ratio**  
Ocular Hypertension Treatment Study: reproducibility of cup/disk ratio measurements over time at an optic disc reading center, 19

**Cyst(s)**  
Recurring transitory blindness caused by primary marginal pigment epithelial iris cysts, 407  
Visualization of conjunctival cyst by indocyanine green, 827

**Cystoid macular edema**  
Cystoid macular edema associated with ocular hypotensive lipids, 403  
Cystoid macular edema in the era of ocular hypotensive lipids, 393

**Effect of internal limiting membrane peeling on chronic recalcitrant pseudophakic cystoid macular edema: a report of two cases, 571**

**Cytomegalovirus retinitis**

**Diethylpropionate**

Clinical and oculographic response to Tenuate Dospan (diethylpropionate) in a patient with congenital nystagmus, 159

**Diplopia**

Persistent vertical binocular diplopia after cataract surgery (correspondence), 860

**Dolichoectatic vertebral artery**

Hemifacial spasm caused by vertebral artery dolichoectasia, 854

**Doppler imaging**

An apparatus for color Doppler imaging in seated subjects, 270

**Dorzolamide**

Additive intraocular pressure lowering effect of various medications with latanoprost, 836

**Drugs**

Accuracy and precision of intraocular injection volume, 564

**Drusen**

Fundus autofluorescence in patients with age-related macular degeneration and high risk of visual loss, 341

**Dry eyes**

Impaired functional visual acuity of dry eye patients, 181

**E**

## ABSTRACT INDEX

### A

#### **Acetylcysteine**

Random and systematic medication errors in routine clinical practice: a multicentre study of infusions, using acetylcysteine as an example, 596

#### **Acupuncture**

Should systematic reviews include non-randomized and uncontrolled studies? The case of acupuncture for chronic headache, 596

#### **Anthrax**

Clinical presentation of inhalational anthrax following bioterrorism exposure. Report of 2 surviving patients, 433

#### **Apoptosis Regulators**

Apoptosis regulators and their role in tumorigenesis, 301

#### **ARIX**

Homozygous mutations in ARIX (PHOX2A) result in congenital fibrosis of the extra ocular muscles type 2, 435

#### **Arteritis**

Detection of varicella-zoster virus DNA in some patients with giant cell arteritis, 177

Does this patient have temporal arteritis? 865

#### **Atherosclerosis**

Retinal arteriolar narrowing and risk of coronary artery disease in men and women. The Atherosclerosis Risk in Communities Study, 865

#### **Atrial Fibrillation**

Stroke prevention in atrial fibrillation: physicians' attitudes to anticoagulation in older people, 740

#### **Attention Deficit Hyperactivity Disorder**

Oculomotor abnormalities in attention deficit hyperactivity disorder. A preliminary study, 176

#### **Authorship**

Sponsorship, authorship, and accountability, 174

#### **Autopsy Findings**

Unexpected autopsy findings arising from postmortem ocular examinations, 175

### B

#### **Blepharospasm**

A polymorphism in the dopamine receptor DRD5 is associated with blepharospasm, 740

### C

#### **Carotid-Artery Stenosis**

Prognosis after transient monocular blindness associated with carotid-artery stenosis, 302

#### **Children**

Integration of children with visual impairment in regular preschools, 738

#### **Clinical Trials**

Managing conflicts of interest in the conduct of clinical trials, 864

#### **Color Blindness**

Impact of color blindness on recognition of blood in body fluids, 177

### Cornea

Distribution of cyclosporin A in the cornea after topical or oral administration, 868

The cornea in young myopic adults, 436

#### **Corneal Allograft Response**

Kinetics of leukocyte and myeloid cell traffic in the murine corneal allograft response, 595

#### **Cysticercosis**

Visual loss in cysticercosis: analysis of 23 patients. 434

### D

#### **Diabetes**

Increased prevalence of micro thromboses in retinal capillaries of diabetic individuals, 596

Pupillary autonomic denervation with increasing duration of diabetes mellitus, 867

#### **Dry Eye Syndrome**

Hormone replacement therapy and dry eye syndrome, 304

### E

#### **Education, medical**

Medical innovation and institutional interdependence. Rethinking university-industry connections, 864

#### **Epstein-Barr Virus**

Epstein-Barr virus antibodies and risk of multiple sclerosis: a prospective study, 595

### F

#### **Foveal Fusion**

Stereoacluity and foveal fusion in adults with long-standing surgical monovision, 738

#### **Frontal Lobe Damage**

Face memory impairments in patients with frontal lobe damage, 866

### G

#### **Ganglion Cell Death**

A hypothesis to explain ganglion cell death caused by vascular insults at the optic nerve head: possible implication for the treatment of glaucoma, 301

#### **Genes**

A novel missense adenine nucleotide translocator-1 gene mutation in a Greek adPEO family, 598

ANT1, Twinkle, POLG, and TP. New genes open our eyes to ophthalmoplegia, 598

CPEO associated with a single nucleotide deletion in the mitochondrial tRNA<sup>Ty</sup> gene, 598

Gene expression profile analysis by DNA microarrays. Promise and Pitfalls, 739

#### **Glaucoma**

Adult-onset primary open-angle glaucoma caused by mutations in optineurin, 866

A hypothesis to explain ganglion cell death caused by vascular insults at the optic nerve head: possible implication for the treatment of glaucoma, 301

Glaucoma surgery with or without adjunctive antiproliferatives

in normal tension glaucoma. 2. Visual field progression, 303

#### Glycemia

The relation of glycemia to the risk of development and progression of retinopathy in the Diabetic Control and Complications Trial, 436

#### H

#### Headache

Should systematic reviews include non-randomized and uncontrolled studies? The case of acupuncture for chronic headache, 596

#### Health Maintenance Organizations

Leaving gatekeeping behind—effects of opening access to specialists for adults in a health maintenance organization, 300

#### Hormone Replacement Therapy

Hormone replacement therapy and dry eye syndrome, 304

#### Human Body

A cortical area selective for visual processing of the human body, 598

Distributed and overlapping representations of faces and objects in ventral temporal cortex, 598

#### Hypertension

Lack of long-term drift in timolol's effectiveness in patients with ocular hypertension, 738

Manometry combined with cervical puncture in idiopathic intracranial hypertension, 740

#### I

#### Iris Tissue

Induction of photoreceptor-specific phenotypes in adult mammalian iris tissue, 435

#### K

#### Keratoepitheliopathy

Ocular and systemic factors relevant to diabetic keratoepitheliopathy, 597

#### L

#### Lymph Nodes

The critical role of lymph nodes in corneal alloimmunization and graft rejection, 176

#### M

#### Macular Degeneration

An integrated hypothesis that considers drusen as biomarkers of immune-mediated processes at the RPE-Bruch's membrane interface in aging and age-related macular degeneration, 868

Fundus autofluorescence and development of geographic atrophy in age-related macular degeneration, 304

#### Medical Ethics

Effect of restricting contact between pharmaceutical company representatives and internal medicine residents on post training attitudes and behavior, 300

Informed consent in complementary and alternative medicine, 300

Leaving gatekeeping behind—effects of opening access to specialists for adults in a health maintenance organization, 300

Legal issues in scientific research, 864

The ethics of placebo-controlled trials—a middle ground, 174

#### Mucous Membrane

Mucous membrane pemphigoid: HLA-DOB1\*301 is associated with all clinical sites of involvement and may be linked to antibasement membrane IgG production, 597

#### Multiple Sclerosis

Epstein-Barr virus antibodies and risk of multiple sclerosis: a prospective study, 595

A longitudinal study of abnormalities on MRI and disability from multiple sclerosis, 739

#### O

#### Ocular Examinations

Unexpected autopsy findings arising from postmortem ocular examinations, 175

#### Ophthalmoparesis

MRI characteristics of the MLF in MS patients with chronic internuclear ophthalmoparesis, 175

#### Oral Fluorescein Angiography

Use of oral fluorescein angiography in the diagnosis of macular oedema within a diabetic retinopathy screening programme, 737

#### Orbicularis Oculi Activity

Prolonged orbicularis oculi activity. A major factor in paraxia of lid opening, 302

#### P

#### Parkinson's Disease

Prospective longitudinal assessment of hallucinations in Parkinson's Disease, 594

#### Physicians' Union

Collective bargaining by physicians—labor law, antitrust law, and organized medicine, 433

#### Pituitary Apoplexy

Precipitating factors in pituitary apoplexy, 434

#### Povidone-Iodine

Corneal endothelial cytotoxicity of diluted povidone-iodine, 737

#### Primates

Continuous ambient lighting and eye growth in primates, 176

#### Prosopagnosia

Covert recognition in acquired and developmental prosopagnosia, 866

#### Q

#### Quality of Life

Influence of age on medicare expenditures and medical care in the last year of life, 174

Lack of health insurance and decline in overall health in late middle age, 433

#### R

#### Retina

Photoreceptive net in mammalian retina, 739

Will retinal implants restore vision?, 865

#### Retinal Artery Occlusion

Role of factor XIII Val34Leu polymorphism in retinal artery occlusion, 594

**Retinal Vein Occlusion**

Retinal optic neurotomy for central retinal vein occlusion. A retrospective pilot study of 11 consecutive

**Retinoblastoma**

Protocol for the examination of specimens from patients with retinoblastoma, 175

**RPE65 Deficiency**

New views on RPE 65 deficiency: the rod system is the source of vision in a mouse model of Leber congenital amaurosis, 434

**S****Stereoaclity**

Stereoaclity and foveal fusion in adults with long-standing surgical monovision, 738

**Steroids**

Effect of steroids on acanthamoeba cysts and trophozoites, 737

**Stroke**

Stroke prevention in atrial fibrillation: physicians' attitudes to anticoagulation in older people, 740

**T****Timolol**

Lack of long-term drift in timolol's effectiveness in patients with ocular hypertension, 738

**Toxoplasma Gondii**

Detection of Toxoplasma Gondii DNA in primary intraocular lymphoma B-Cell Lymphoma, 435

**Tumorigenesis**

Apoptosis regulators and their role in tumorigenesis, 301

**U****Uveal melanoma**

Protocol for the examination of specimens from patients with uveal melanoma, 175

**V****Visual Fields**

Effectiveness of testing visual fields by confrontation, 303

Glaucoma surgery with or without adjunctive antiproliferatives in normal tension glaucoma. 2. Visual field progression, 303

No reversion in vigabatrin-associated visual field defects, 867

**Vitrectomy**

Vitrectomy results in diabetic macula oedema without evident vitreomacular traction, 304

**W****Wound Infection**

Effects of preoperative warming on the incidence of wound infection after clean surgery: a randomized controlled trial, 178
